EDUCATION

Bachelor Of Computer Applications   09/2022 – 06/2025
Khwaja Moinuddin Chishti Language University 🔗   Lucknow, India
Grade : A, CGPA: 8.14

SUMMARY

I'm a Full Stack Web Developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js). I build clean, responsive, and scalable web applications — from crafting robust backend APIs to designing intuitive frontends. My experience includes real-world projects like inventory systems, appointment platforms, and e-commerce apps. I'm passionate about writing efficient code and delivering seamless user experiences.

SKILLS

Programming Languages   **Database:**
Javascript , Java , C++ , C   MongoDB, PostgreSQL

Frameworks: **Developer Tools :**
ReactJS, NodeJS, ExpressJS   GitHub, Visual Studio Code, Cursor, ChatGPT,

PROJECTS

Inventory Management System
University Major Project
Developed a full-stack Inventory Management System using Node.js, Express.js, PostgreSQL, HTML, CSS, and JavaScript. The system includes user authentication with role-based access, product and stock management, category-wise product organization, and PDF bill generation. Guided by a YouTube tutorial and extended with custom features and a modern UI.

E-Commerce Platform
University Minor Project
Created a responsive E-commerce front-end website using HTML, CSS, and JavaScript. Implemented dynamic product listings, a working shopping cart, and basic product detail pages. Focused on user interaction, layout design, and responsive behavior.

Keeper App
Udemy-Project
Keeper App is **React-based note-taking application**. It allows users to add and delete notes, with each note potentially having a title and body. This project serves as a practical exercise in React development, teaching concepts like state management, component-based architecture, and JSX.

COURSES

Web Development Bootcamp- Angela Yu   05/2022 – 06/2025
Completed Web Development Bootcamp by Angela Yu to gain hands-on experience   Remote Platform
in the MERN stack and full stack development.

CERTIFICATES

Generative AI Fundamentals with Google Cloud
I explored how generative AI models like large language models (LLMs) and diffusion models work

Deloitte Technology Job Simulation   Remote, Australia
I completed a job simulation involving development and coding.
Wrote a proposal for creating a dashboard

Fullstack Web Development BootCamp   09/2022 – 07/2025
Build 16 web development projects.   Remote, India
